

## ORDNANCE SURVEY HUNT MAPS 1903-1940

Early Ordnance Survey Hunt mapping read the introduction to H03-OS-1805-1900

NB.i .Three forms of OS Hunt map in a practical folding,dissected double sided pocket format were available to Hunt Members see Appendix 4

NB.ii. Maps produced by private publishers but using OS information are described and listed in the 'Non Series Publishers - Descriptive Lists' e,g R.Jackson,G.W.Bacon,W.Bennett,&c.,

### Barb Wire or Wire Maps

Few such maps seem to exist or are known at the present time, it appears that all or many Hunts had a separate structure to deal with Members and Horse safety associated with barb wire on Farms. A 'Wire' Committees was set up either formally or informally, its function was to divide up the hunt area into manageable areas to identify which farms used barbed wire, then either to plan meets avoiding these farms or persuade the Farmer to remove it! One such map on a 6" scale was literally cut up in such a way as to take in a complete farm or group of farms, distributed to Wire Committee Members with clear instructions as to his or her actions to identify such dangers prior to each Season.

See FILE H04-OS-1903-40 **Map 6"/1 and Map 3/1**

### Dating

To the OS uninitiated like myself, trying to date many OS Hunt Maps frequently of entirely different issues, where maps can be composed of one,two or more sheets, and which are commonly without the standard reference material of border/legend information, is slow and laborious, with patience and much reading you just 'might' eventually be able to derive a reasonable accurate but still approximate date. For this reason a wide margin of circa dating is used in the descriptive list,and no doubt errors have been made. One final comment, the repetitive coloured text used in the OS maps descriptions will no doubt be seen as unnecessary by OS map collectors but it is used to aid those unfamiliar with OS maps and I hope therefore will be forgiven.

Any text in blue e.g. '**CAPT SPICER**' informs the reader of some form of change or amendment to the previous copy and might be a addition, deletion, or even a change of font from lower to uppercase or visa versa.

**Sellers Description** - RARE 1914 Ordnance Survey HUNTING Map NORTHAMPTON 1"

Large & Very Uncommon folding map of Around Brackley

Northampton (Around Brackley) 1914

A RARE early Folding Ordnance Survey map produced and hand coloured specifically for hunting purposes made up of sheets 82 & 83; these maps are obviously from small print runs and many were ruined in the field - very few survive. 45 panels and measuring approx 41" x 39" and beautifully hand coloured in the Hunt pack areas complete with boundaries & titling i.e. Grafton, Whaddon Chase, Bicester and Warden Hill, Pytchley, Heythrop, Old Berkley, Warwickshire, Oakley and N. Warwickshire. The radius is centered on Brackley with ringed zones going out. Each hunt area is beautifully hand coloured to its boundaries. Condition : GOOD+. Covers : Normal wear to covers with NO CHIPPING & NO SPLITTING. A number of small light marks to boards with dusting. An old faint ink name to head of front board. Gilt still bright on front board "Country Around Brackley". Map : Normal wear to extremities & folds with NO CHIPPING & NO SPLITTING. Some light dusting to edges. A few small light handling marks to foot margin of map - none of note. NO INSCRIPTIONS. A Very Uncommon large folding OS map from the RARE Hunting Country series with original hand colouring of boundaries.

#### VALE of WHITE HORSE HUNT MAPS PE/17.

The VofWH Hunt area was split into two separate hunt parts c1885 whilst retaining the VWH appellation within both their names. Each had a different M.F.H, Hunt Servants, Pack of Hounds and uniform. It was re-amalgamated in 1964 [for financial reasons] by this time original boundaries had been eroded and reduced by Urban growth like many other hunts.

**The VWH (Earl Bathursts) Hunt**, Kennel Pack was based at Cirencester Park with additional centres in the 1900s at Fairford, Malmsbury & Tetbury. Usually Name & Boundary shown in **Blue** on hunt maps

**The VWH (Cricklade) Hunt**, Kennel Pack was based at Cricklade with additional centres in the 1900s at Purton, Swindon & Cirencester. Usually Name & Boundary shown in **Pink** on hunt maps.

##### Base map

One-inch Popular Edition, coloured. The base maps are parts of sheets 83: 500/25 printing (not 3000/30); 84: 750/24 (not 2500/30); 94: 500/28; 95, 500/27; 105, 3500/28; and 106: 5000/28 (not 8500/30). The map was therefore compiled c.1929.

##### Dimensions

Within the neatline 34" wide x 36" high. Total size (with margins and dissection) 37.5" wide x 39.5" high. The latter measurement is an estimate and is academic as the Stanford-Bridges' mounting is 8 panels wide and 12 high, so that only 1/6 of the map can be viewed at once. The number of panels makes it difficult to use, so much so that colour coded arrows have been added (by Stanfords) to make it easier to line up the different sections.

##### Hunt information

The hunts' full names are stencilled in 3/10" high blue letters near the centre of their territories:

BICESTER & WARDEN HILL                      WHADDON CHASE

Their boundaries are marked by a pink wash and a green wash respectively. These abut one another between Buckingham and Aylesbury.

Red spots denote hunt meeting places, with place names underlined. In a few places, arrows connect names with spots up to a mile away. 67 meeting places are shown for the Bicester Hunt (2 of which – Islip Town End and Bourtonville - have names added in ink); 45 meeting places of the Whaddon Hunt are identified.

### Map 5th Ed /7 and Map 7th ed/14. dual sheet map.

A map comprising dual source material, the lower half from 5th Ed style/source, the upper half from a early 7th Ed, hence it contains dual information. The road colouring is red, brown & and yellow on one, and red & ochre on the other, on the other, road numbering varies, the A 11 is shown both as '**A.11**' [in small black font] & '**A 11(T)**' [in larger red font ], the 1km grind is shown both as a solid grey box and as a dotted black box. Buildings have a solid black or a grey infill. There are numerous other easily identified illustrations of variance.

Size- Dissected 36.5" x 26 [Portrait style] Sht 108

Standard 1"/1m map sheets. On the map the unnamed hunt border is outlined in strong pastel **pink**.

Contours in **Brown** with a part legend cut and pasted on below map, no border lines shown, Mounted by Edward Stanford, Ltd., Cartographer, 12-14 Long Acre, London, W.C.2

This fusion of 5th/7th edition sheets suggests poor stock control at the time of creating this hunt, otherwise hard to believe its existence in this form.
