

ORDNANCE SURVEY HUNT MAPS 1945-1974

Early Ordnance Survey Hunt mapping read the introduction to H03-OS-1805-1900

NB.i .Three forms of OS Hunt map in a practical folding,dissected double sided pocket format were available to Hunt Members see Appendix 4

NB.ii. Maps produced by private publishers but using OS information are described and listed in the 'Non Series Publishers - Descriptive Lists' e,g R.Jackson,G.W.Bacon,W.Bennett,&c.,

Barb Wire or Wire Maps

Few such maps seem to exist or are known at the present time, it appears that all or many Hunts had a separate structure to deal with Members and Horse safety associated with barb wire on Farms. A 'Wire' Committees was set up either formally or informally, its function was to divide up the hunt area into manageable areas to identify which farms used barbed wire, then either to plan meets avoiding these farms or persuade the Farmer to remove it! One such map on a 6" scale was literally cut up in such a way as to take in a complete farm or group of farms, distributed to Wire Committee Members with clear instructions as to his or her actions to identify such dangers prior to each Season.

See FILE H04-OS-1903-40 **Map 6"/1 and Map 3/1**

Dating

To the OS uninitiated like myself, trying to date many OS Hunt Maps frequently of entirely different issues, where maps can be composed of one,two or more sheets, and which are commonly without the standard reference material of border/legend information, is slow and laborious, with patience and much reading you just 'might' eventually be able to derive a reasonable accurate but still approximate date. For this reason a wide margin of circa dating is used in the descriptive list,and no doubt errors have been made. One final comment, the repetitive coloured text used in the OS maps descriptions will no doubt be seen as unnecessary by OS map collectors but it is used to aid those unfamiliar with OS maps and I hope therefore will be forgiven.

Map 7/2.

[Contours in Faint Beige almost Grey Green colour, Tree depiction in Woods and in Parklands, grid of solid lines. This booklet of a folding O.S. map of North Wales is used to illustrate a novel way of laminating and folding hunt maps for use out in the field. It claims 'Ord Survey Crown Copyright' but it is unclear if this only refers to the use of the OS map content or the whole idea formulated by Turner, but probably the former.

Standard 1"/1m sheets 7th edition map sheets with a numbered 0.6" x 0.6" grid across the map face.

Soft red covers with no label or outside title.

Southampton O.S.[1950-70s] (DD coll)

Map 7/14 and Map 5th Ed/ 7 Series sheet dual sheet map.

A map comprising dual source material, the lower half from 5th Ed style/source, the upper half from the 7th Ed, hence it contains dual information. The road colouring is red, brown & yellow on one, and red & ochre on the other, on the other, road numbering varies, the A 11 is shown both as 'A.11' [in small black font] & 'A 11(T)' [in larger red font], the 1km grind is shown both as a solid grey box and as a dotted black box. Buildings have a solid black or a grey infill. There are numerous other easily identified illustrations of variance.

Size- Dissected 36.5" x 26 [Portrait style]
Standard 1"/1m map sheets. On the map the unnamed hunt border is outlined in strong pastel pink.
Contours in Brown with a part legend cut and pasted on below map, no border lines shown, Mounted by Edward Stanford, Ltd., Cartographer, 12-14 Long Acre, London, W.C.2. This fusion of 5th/7th edition sheets suggests poor stock control at the time of creating this hunt, otherwise hard to believe.
